

EDGE™ Fully Reinforced Saddlebags

EDGE bags are not your average saddlebags. Completely reinforced in all critical points, they scream leather, yet function like hardbags. Most other bags only look good on the showroom floor; but the moment they end up on your bike they start sagging under their own weight, even before you put your gear inside. The EDGE bags are designed with attention to both function and looks alike, and will hold their shape and attractive finish for unsurpassed longevity. This is extremely important, especially for extra large bags. Furthermore, the ultra strong, quick-release buckles and internal pocket add simple, yet often overlooked, convenience. Combine the bags with EDGE Brackets and you have a complete package; a perfect bag with the perfect mounting system.

Construction of every EDGE saddlebag follows strict guidelines of our EDGE layering technology; where all vital panels are reinforced with specialty unbreakable plastics, every stress point is riveted for superior strength, and every top rim is secured in place by hardened steel rails which, in turn, are covered by leather for a clean, finished look inside and out.

Some key features available with EDGE Hardmount Fully Reinforced Saddlebags:

- A large variety of sizes and styles to meet every need
- Wheel side of the bag is specialty unbreakable plastic
- Every major panel is reinforced with ABS
- Metal reinforced top rim covered in leather for superior strength and clean look
- Rot-proof stitching
- Riveted stress points for strong reinforcement
- Chrome-plated studs and buckles
- Quick-release buckles
- Superior specialty full grain and tek leather
- Perfect companion for EDGE Brackets
- Unsurpassed EDGE quality, design and workmanship

Â
